The freemen of Kentucky have a gr tuty to perform. A crisis is upon them. bold and independent epirit for which the otism, the consequences may prove disas cord with as in scutiment! By their conduct

But why should we shrogstein of State governments, and the sub-ask? We know the people of our gailant attitution of Federal authority, the Governnonwealth. By voting the Democratic ticket, incapable of assisting in defraying the general for that ticket which is headed by the able and patriotic Helm, we take position for truth, for the freedom of the filters, for the Government under which the nation prospered during so many years. In declaring for the Radical candidates we indone the deprivation of Kentacky of representation because of her fidelity to the Constitutions, and the friends of constitutions and positive source of expense to the people of other portions of the Union. If such telling facts and grares do not ruin the Radical party with the Northern people, solding the general state, and its repeal, said:

By voting the Democratic ticket, for that ticket which is headed by the abic stitution; in declaring for the Democratic choice before them—such an opportunity of making known their views, no one can doubt as to what Kentrekians will do.
